**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC, My name is Daniel Davidson and I am a consumer of sonic.nets' services. I am on a fixed income, and do not have much money to provide my household with expensive priced internet and phone services. My wife and I are participating in an Adult on-line education program, and very much so, need the fairly priced internet and service Sonic provides us. I support the Broadband competition and would like to experience possibly better faster connection. I think what Sonic is trying to do will be extremely beneficial to all consumers Sonic provides multiple services to. Please consider the many people on this network; who at risk of potentially losing a very valuable service that is affordable for us as a community who either; do not live in an area that internet connectivity is limited by different provider's, Low Income, or are simply needing to purchase an affordable internet due to financial setbacks.

Thank you in advance for considering not only my plea, but many others who may be in the same or similar situations.

Sincerely

Daniel Davidson
